| I    | <p><b>Indian Financial System and major Institutions:</b></p> <p>Structure of Indian Financial System: An overview of the Indian financial system, Introduction of financial system, Functions of the Financial System, Structure and Characteristics of Financial system, Prerequisites of a Financial System, Players in the Financial System, This is the foundational text for ancient Indian economics and statecraft. It provides details on currency, taxation, state finance, interest rates, trade, and even early forms of administrative regulation. Essential for understanding the economic thought of ancient India.</p> <p>Major reforms in the last decade: Payment banks, monetary policy and restructuring, Regulatory Institutions in India: RBI, SEBI, IRDA, PFRDA. Describe Hundis as indigenous credit instruments used for remittance and trade finance across vast distances. This highlights the concept of credit, transfer of funds, and reduction of risk, which are core functions of a financial system. This can be an "Indian Knowledge System" equivalent of a modern financial instrument.</p> <p>Commercial Banking: Role of Banks, corporate banking, Core banking solution (CBS), Arthashastra acknowledges the concept of interest (vridhi) and even discusses different rates for various types of loans and borrowers, showing an early understanding of the time value of money and risk.</p> <p><b>Non –Banking Finance Companies:</b><br/> NBFCs Introduction and its types; Services Provided by NBFCs, comparison between Banks and NBFCs, Growth of NBFC in India.</p> <p><b>Unit Activity :</b></p> <p>➤ <b>Structure Diagram Creation:</b> Draw a hierarchical diagram illustrating the structure of the Indian Financial System (e.g., Regulators at the top, then Financial Institutions and Markets, with sub-categories under each).</p> <p><b>Unit Activity</b></p> <p>➤ Create a chart illustrating the regulatory framework for NBFCs in India, primarily focusing on the role of the RBI. Include different categories of NBFCs and any variations in their regulation.</p> | 08              |

| III | <p><b>Money Market:</b><br/> Introduction to Money Market, Characteristics and functions, Development of money market in India: The <b>Hundi system</b> served as a vital instrument for short-term credit, remittances, and exchange, enabling merchants to access funds and settle transactions across vast distances without physical movement of cash.</p> <p>Money Market instruments-T-bills, Commercial Papers, Certificates of deposits, call money markets, Repo-purchase and factors affecting their growth: <b>Focus on Commercial Papers/short-term instruments):</b> "The concept of instruments for short-term borrowing and lending is not entirely new to India. The <b>Hundi</b>, in its various forms (e.g., <i>Darshani Hundi</i> for demand payments, <i>Muddati Hundi</i> for time-bound payments), acted as a primitive form of commercial paper, allowing merchants and even rulers to raise short-term finance against future obligations. These instruments were a crucial component of India's pre-modern 'money market,' facilitating transactions, providing liquidity, and underpinning the extensive trade networks that characterized ancient and medieval Indian economies." Role of RBI in the development of money market,</p> | 10 |
